

Dagor Sorhdeam - Su la Terre

tom:
 Waging war and suffering
 Choking in jillions of fire, blood and misery
 Here all the speeches expire confronting reality
 Fragments of comrades and dirty defy my mind
 Insanity lives in these struggle of mankind
 Hatred meets the angst in this mud

Inhumanity embraces us till we're gone
 In acquiescence shall we drown?
 War of the western knights
 Became my lasting fight
 North of the Douaumont Fort
 We came here to die
 Lord of the odds will my soul leave in grief?
 Forever in a slaughter machine
