

Dan + Shay - What You Do To Me

Tom: G

G D Em
I drive away from your house, chasin' butterflies out

G D Em
Girl, I don't know how you do it

G D Em
I said "Girl, you're beautiful, 'n' you already know it

C D Em
But I'll say it again and a million times after that"

G D Em
You laugh and you shake your head and say "Boy, you're crazy"

C
Well, girl, if I'm crazy, I'm only crazy 'bout you

G D Em
I was lookin' right into your eyes, right then, porch light

C
Flipped on and I saw your dad lookin' through the window
Hope he ain't mad

G D
Then I helped you outta my truck, through the yard to your
front door

Em C
Said "Girl, am I gonna see you again?" You answered me back
with a kiss

G D Em
I drive away from your house, chasin' butterflies out

C
Girl, I don't know how you do it

G D Em
Roll the radio down, say "I love you" out loud

C
Man, I think I'm 'bout to lose it

G
Ain't my thing to jump the gun

D
But I called my dad and said "She's the one"

Em
Said "Boy, better get that ring

C
if you really wanna change her name"

G D Em C
Like a merry-go-round, got my head spinnin' round and round
and round

G D Em
That's just what you do, do, do, do, do, do, do to me

G D
I picked you up for our second date, you're sure lookin'
pretty

C
Sweet as an angel, here to save my soul

G D Em
Mmm, yea, you get me high, you take me to heaven

C
And I get to shakin' when you put your lips on mine

G D Em
It could be the best night of my life, least 'til next time

C -mute

Oh yea, gotta get this right, follow all the rules and be back
by nine

G D
Pulled up to drop you off, leanin' in to sneak one more

Em C
Said "Baby, when can I see you again? How 'bout every night
after this?"

G D Em
I drive away from your house, chasin' butterflies out
