

# Daniel Johnston - I Killed The Monster

tom:

I'm moving on, I'm getting out  
I killed the monster

Passed it behind, fate has been kind  
I killed the monster

I know it's right, I learned to fight  
I killed the monster

Let it be said when I am dead  
I killed the monster

He put me down through many rounds  
But I have found a good thing

Right to the end I was my friend  
I killed the monster

I almost lost I paid the cost  
I killed the monster

Angels came down right on the ground  
I killed the monster

Blood on the ground, there was no sound  
I was the winner

They put me down through many rounds  
But I have found a good thing

I killed the monster  
I killed the monster  
I killed the monster  
I killed the monster
