

Daniel Johnston - Mind Contorted

Tom: G

I've been through some hard
 C But i'm feelin' so much better
 G I'm standing in your yard
 C I could be here forever
 Em And i know if you saw me now
 C D You would be much perplexed
 Em And i know if you saw me now
 C D Your mind would be contorted
 G But I love you
 C Every time i think of you
 G The sun shines brightly on my soul
 C But theres something missing there
 D Part of you part of the whole.
 C I cried a million tears
 G Fill an ocean with my sorrow
 C And if I had my way
 G I'd be up to see you tomorrow
 Em C And I know if you saw me now
 D You would be quite perplexed

Em C
 And I know if you saw me now
 D Your mind would be contorted
 G
 But I love you
 C
 Every time I think of you
 G
 I feel like writing a song
 C
 And if I could win your heart
 D
 I never that it'd take so awful long
 C
 And I wish upon a star
 G
 Hope that we could get together
 C
 I'll be standing in your yard
 G
 We could be there forever
 Em C
 And I know if you saw me now
 D
 You would be much perplexed
 Em C
 And i know if you saw me now
 D
 Your mind would be contorted
 Em C
 And I know if you saw me now
 D
 You would be quite perplexed
 Em C
 And I know if you saw me now
 D
 Your mind would be contorted
 G
 But I love you
