

Daniel Powter - Bad Day

```
Tom: Eb
                                                               Cause you had a bad day
                                             D )
 (com acordes na forma de
Capostraste na 1ª casa
                                                               You're taking one down
Intro: D G A G
                                                               You sing a sad song just to turn it around
 Where is the moment when we need it the most
                                                               You say you don't know
 You kick up the leaves and the magic is lost
                                                               You tell me don't lie
 They tell me your blue sky's faded to grey
                                                               You work at a smile and you go for a ride
They tell me your passion's gone away
                                                               You had a bad day
And I don't need no carrying on
                                                               The camera don't lie
                                                               You're coming back down and you really don't mind
 Stand in the line just to hit a new low
                                                               You had a bad day
 You're faking a smile with the coffee you go
 You tell me your life's been way off line
                                                               Sometimes the system goes on the blink
You're falling to pieces everytime
                                                               And the whole thing it turns out wrong
And I don't need no carrying on
                                                               You might not make it back and you know
                                                                               Bb
Refrão:
                                                               That you could be well oh that strong
                                                               Well I'm not wrong
Cause you had a bad day
You're taking one down
                                                               So where is the passion when you need it the most
You sing a sad song just to turn it around
                                                               Oh you and I
You say you don't know
                                                               You kick up the leaves and the magic is lost
You tell me don't lie
You work at a smile and you go for a ride
                                                               Cause you had a bad day
You had a bad day
                                                               You're taking one down
The camera don't lie
                                                               You sing a sad song just to turn it around
You're coming back down and you really don't mind
                                                               You say you don't know
You had a bad day
                                                               You tell me don't lie
You had a bad day
                                                                              Em
                                                               You work at a smile and you go for a ride
( D G A G ) (2x)
                                                               You had a bad day
Well you need a blue sky holiday
                                                               It seem what you like
                                                                               Bm7
The point is they laugh at what you say
                                                               And how does it feel for one more time
                                                                              G A
                                                               You had a bad day
And I don't need no carrying on
                                                                          D G Em A (4x)
Refrão:
                                                               had a bad day
