

Daniel Schulz - Turn Back Time

tom: D

We used to run red lights and never look back Em C

We used to chase long nights, nothing wrong with that G D

'Cause I loved you and I lost my mind Em C

And now, I try to leave it, oh, I try G D

But you still haunt me no matter where I go Em C

And you hated my lasagna but you came back for more G D

You got me running circles in your favorite store Em C

And I lost you and I lost my mind C

And now, I try to leave it all behind G D

But I still see you no matter where I go

If I could turn back time and make it all alright Em C

Only a piece of you and me will keep me warm all night G D

If I could turn back time and rewrite every line Em C

If only I could, but baby, I can't G D

So I'mma scream, shout, let all out Em C

And scream and shout and let it all out for you, for you G D

So I'mma scream, shout, let all out Em C

And scream and shout and let it all out for you, for you G D

I hit you up like, "Hey girl, can we talk right now? Em C

I know you're far away, girl, can we hang right now?" G D

'Cause I loved you and I lost my mind Em C

And now, I try to leave it all behind G D

But I still see you no matter where I go Em C

I know it's getting late, girl, I don't care right now G D

I tried to call you on the phone, girl, but you don't pick up Em D

And I lost you and I lost my mind C

Now, I tryna leave it, oh, I'm trying G D

But you still haunt me no matter where I go

If I could turn back time and make it all alright Em C

Only a piece of you and me will keep me warm all night G D

If I could turn back time and rewrite every line Em C

If only I could, but baby, I can't G D

So I'mma scream, shout, let all out Em C

And scream and shout and let it all out for you, for you G D

So I'mma scream, shout, let all out Em C

And scream and shout and let it all out for you, for you G D

Maybe it's a mistake if we let the clock break Am C

Everything in my mind, everything in mind is telling me G D

That it's a mistake and it ends in heartbreak Am C

Everything in my mind, everything in mind is telling me G D

To try to turn back time and make it all alright Em C

Only your piece of you and me will keep me warm all night G D

If I could turn back time and rewrite every line Em C

If only I could, but baby, I can't G D

So I'mma scream, shout, let all out Em C

And scream and shout and let it all out for you, for you G D

So I'mma scream, shout, let all out Em C

And scream and shout and let it all out for you, for you G D
