

Danny Worsnop - Angels

Tom: G
Intro: G C G C Am C D G D

[Verso 1]

Em She runs with the water
Dances with the flames
She floats with the breeze
Em She gathered her armies
Tore down my walls

And she loved me with everything

[Refrão]

I believe that angels come around here
Cause I see one right in front of me
So here I stand, holding out my hand
Asking an angel to believe in me

[Verso 2]

Em When there are oceans between us
Her voice feels like home
And pulls me back to her
Em When the morning's upon us
And we're intertwined as one

She makes heaven of everything

[Refrão]

I believe that angels come around here
Cause I see one right in front of me
So here I stand, holding out my hand
Asking an angel to believe in me

[Ponte]

And when she sings "you are so beautiful, to me"
Hmm
She is so beautiful to me

[Refrão]

Oh I believe that angels come around here
Cause I see one right in front of me
So here I stand, holding out my hand
Asking an angel to believe in me

I believe that angels come around here
Cause I see one right in front of me
Right in front of me
