

## **David Boone - Deck of Cards**

```
I?m sitting down here on the sidewalk watching the motion
                            tom:
                                                               pass
                Gb (forma dos acordes no tom de G )
                           Afinação: Eb Ab Db Gb Bb Eb
                                                               me by
                                                                  You got your head down in your hands; you?re wondering why
  We all want a piece of paradise
Just one time in our life
                                                                the commotion
A chance to see the stars
                                                                  If you want me to leave
I?m sitting on a deck of cards
                                                               Baby, I?ll go wherever you want me to go
               Bm
I can?t buy you diamonds, but I?ll give you my heart
                                                                  But if you want a piece of me
                                                               I?ll give you the whole, oh the whole night through
   We?ve been down this road before
We were young then, girl, you know it
                                                                 Are we on the wrong side of the road? I?d tell you, darlin?,
   We tried to make it all end perfect
Then we found out it wasn?t really worth it
                                                                could, but I just don?t know
                                                                Are you on the fence? Well, in my defence, when I close my
   If you want me to leave
Baby, I?ll go wherever you want me to go
                                                               we?re still dancing
   But if you want a piece of me
                                                                  If you want me to leave
I?ll give you the whole, oh the whole night through
                                                               Baby, I?ll go wherever you want me to go
   Everybody wants a house at the top of the city, at the edge
                                                                  But if you want a piece of me
of
                                                                I?ll give you the whole, oh the whole night through
the ocean
                                                                  We all want to hit the jackpot
   Everybody wants a pretty penny picture, what a nice notion
                                                                            Bm
                                                               Just a little luck of the draw
```

## **Acordes**
