-0-2-----2-0-2-----2-3-2-----2-3-2-----2-
```

Intro: Riff 1

Riff 1

Summer comes, with tacky souvenirs, of all the stupid things we've done  
 Every year, the heat defrosts these memories; I wonder where have you gone

E7sus4    A    D2            Bm  
 We would stay, until dusk came  
 G                            A                            Bm A2  
 We watched the Sun until it was gone  
 G                            A  
 Then Winter came

D2    A    Bm            A2    G    A  
 You faded into rain and went away, away

Riff 1

Summer comes, and takes me to those places, where all the stories started out  
 I watch the Sun, as it slowly fades, hoping it can bring you back

E7sus4            A    D2            Bm  
 We would stay, until dusk came  
 G                            A                            Bm A2  
 We watched the colours ?till they faded  
 G                            A  
 Then Winter came

D2    A    Bm            A2    G    A  
 You faded into rain and went away, away

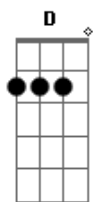

Riff 1

Summer will bring you over  
 You will stay forever  
 Summer will bring you over  
 We will stay forever

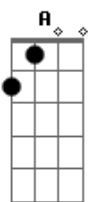

D2

Summer will bring you over
