

# David Gray - From Here You Can Almost See The Sea

Tom: G

**Em7**  
 Come the weekend  
 And we'll long gone baby  
 Just like the old days  
 Letting the world flow through me

**Gb**  
 Just a parasite in a line  
 I'm smoking, killing the time  
 How long's a piece of twine

**Cm** **Em7**  
 What use is sympathy  
 From here you can almost see the sea

**Em7**  
 If you would hold still  
 Could make a clean incision  
 Then we could sit back  
 And watch the demolition

**Gb**  
 Little puppy dog in a box  
 Somebody's picking the locks  
 Must want the darn from the socks

**Cm** **Em7**  
 Here comes the cavalry  
 From here you can almost see the sea

**Bm** **E** **Em7**  
 Just another fool in the line  
**Em7**  
 I dream of high clouds  
 Flushed with the light of daybreak  
 I'm gonna dive in  
 To water so cold it makes your bones ache

**Gb**  
 Fingers, knees and knuckles scraped  
 All of the rubbish heaped  
 a piece of cardboard taped **Cm**  
 Up where the bedroom window pane used to be  
 From here you can almost

**Em7**  
 From here you can almost see the sea

**Bm** **E** **Em7**  
 Just another fool in the line

**Bm** **E** **Em7**  
 Just another fool in the line  
**Em7**

I saw a film once  
 Where all the airholes froze up  
 A killer whale swam  
 Under the blue ice  
 Until her heart stopped
