David Gray - From Here You Can Almost See The Sea

Tom: G

Em7 Come the weekend And we?ll long gone baby Just like the old days Letting the world flow through me Gb Just a parasite in a line I'm smoking, killing the time How long?s a piece of twine Cm What use is sympathy Fm7 From here you can almost see the sea Em7 If you would hold still Could make a clean incision Then we could sit back And watch the demolition Gb Little puppy dog in a box Somebody?s picking the locks Must want the darn from the socks Cm

Here comes the cavalry Em7 From here you can almost see the sea
