## **David Gray - Please Forgive Me**

```
Intro 2x: C Em Am G
                                                 VERSE 4:
                                                            Am G C Em
                                                 C Em
                                                 Please forgive me if I act a little strange
C Em Am G
                                                          Fm
                                                                   Αm
For I know not what I do.
                                                 So I won't ever have to lose you girl,
      Em
Feels like lightning running through my veins
                                                 Won't ever have to say goodbye, aaah
F F C G F F C Everytime I look at you, everytime I look at you
                                                 I won't ever have to lie
                                                      F
                                                 Won't ever have to say goodbye
                                                 Help me out here all my words are falling short
    Em Am G
And there's so much I want to say
                                                 INTERLUDE: ( F F C G F F )
Want to tell you just how good it feels

                                                C VERSE 6:
                                                                   Am
                                                 Please forgive me If I act a little strange
When you look at me that way Aah, When you look at me that
                                                    Em
                                                 For I know not what I do
( C Em Am G )
                                                                       Am
                                                          Fm
                                                 Feels like lightning running through my veins
VERSE 3:
                                                 F F C G F
                                                 Everytime I look at you
Throw a stone and watch the ripples flow
                                                          C G
                                                 Everytime I look at you
C Fm
C EIII
Moving out across the bay

Am G
                                                          C G
C Em
                                                 Everytime I look at you
Like a stone I fall into your eyes
                                                                      Em Am G C
F F C G F N.C.
                                                 Everytime I look at you
Deep into that mystery Aaah, Deep into some mystery
                                                 (CEmAmG)(6x)
Acordes
