All chords in relation to capo

---------
-Verse 1-
---------
Bm                          D                  A
     When the wind picked up the fire spread
                          E                    Bm
And the grapevines seemed left for dead
                       D                                 A
And the Northern sky looked like the end of days
                   Fm
The end of days

Bm                       D                   A
     The wake-up call to a rented room
                      E                          Bm
Sounded like an alarm of impending doom
                   D                         A
To warn us it's only a matter of time

--------
-Chorus-
--------
                Bm         D         A         E
Before we all burn
                Bm         D         A         Fm
Before we all burn
                Bm         D         A         E
Before we all burn
                Bm         D         A (hold A )
Before we all burn

---------
-Verse 2-
---------
Bm                       D                            A
      We bought some wine and some paper cups
                      E                                    Bm
Near your daughters school when we picked her up
                  D                 A
And drove to a cemetery on a hill
          Fm
On a hill

Bm                          D                         A
      And we watched the plumes paint the sky gray
                       E                                    Bm
But she laughed and danced through the field of graves
                  D                      A
And there I knew it would be alright
             E
That everything

--------
-Chorus-
--------
                Bm          D          A          E
Would be alright
                Bm          D          A          Fm
Would be alright
                Bm          D          A          E
Would be alright
                Bm          D          A (hold A )
Would be alright

--------
-Bridge-
--------
Db                                  D
     And the news reports on the radio
                A              Bm
Said it was getting worse
                 D                     Fm
As the ocean air fanned the flames
Db
     But I couldn't think
   D                     A             Bm
Of anywhere I would of rather been
                 D           E
To watch it all burn away

--------
-Chorus-
--------
            Bm         D          A          E
To burn away
Bm          D          A          Fm
Bm          D          A          E
Bm          D          A (hold A )

Bm          D          A          E
Bm          D          A          Fm
Bm          D          A          E
Bm          D          A (hold A )

-------
-Outro-
-------
Bm                          D                      A
      And the firemen worked in double shifts
                       E                   Bm
With prayers for rain on their lips
                          D                   A (fade)
And they knew it was only a matter of time
