Standard Tuning

All chords in relation to capo

-Verse 1-

Bm When the wind picked up the fire spread
 And the grapevines seemed left for dead
 And the Northern sky looked like the end of days
 The end of days

Bm The wake-up call to a rented room
 Sounded like an alarm of impending doom
 To warn us it's only a matter of time

-Chorus-

Before we all burn
 Before we all burn
 Before we all burn
 Before we all burn

-Verse 2-

Bm We bought some wine and some paper cups
 Near your daughters school when we picked her up
 And drove to a cemetery on a hill
 On a hill

Bm And we watched the plumes paint the sky gray
 But she laughed and danced through the field of graves

And there I knew it would be alright
 That everything

-Chorus-

Would be alright
 Would be alright
 Would be alright
 Would be alright

-Bridge-

Db And the news reports on the radio
 Said it was getting worse
 As the ocean air fanned the flames
 But I couldn't think
 Of anywhere I would of rather been
 To watch it all burn away

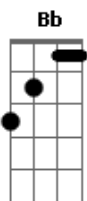

-Chorus-

To burn away
 To burn away
 To burn away
 To burn away
 To burn away
 To burn away

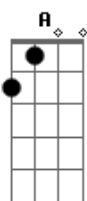

-Outro-

Bm And the firemen worked in double shifts
 With prayers for rain on their lips
 And they knew it was only a matter of time
