

Death Cab For Cutie - I Was A Kaleidoscope

Tom: **A**

Tabbed by: Austin Formica
Email:

Tuning: Standard

The version I Tabbed was just Ben Gibbard playing acoustic guitar.
The Tab is not exactly what ben Plays but sounds good anyway.

Email me if you have questions or corrections.

Verse (Listen for Rythm)- You could also use a variation of

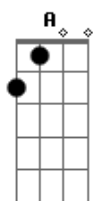

the chords form the chorus.

NOTE: Ben hits the D, G and B strings open palm muted on the downbeats between chords.

I put on my overcoat and walked into the winter
My teeth chattered rhythms.
And they were grouped in twos and threes,
like a morse code message was sent from me to me.
and cars on slippery slopes were stuck:
people pushing through their mittens
as I was beginning
to feel like soaking through my shoes,
getting colder with every step
I took to your apartment, dear.
