

# Death In Vegas - Scorpio Rising

Tom: C

When you kiss the base o' my spine  
 Make my body into your shrine  
 You give me this feeling deep inside  
 One that I can no longer disguise  
 While other snakes just shed their skins  
 Fucked holes pointing out my sins  
 Even though I realise that history's not on my side  
 Even though I realise the pioneer skin still curls up in my eyes

[Refrão]

If I don't go crazy, I'll lose my mind  
 I saw a life before me but now I'm blind  
 I wanna go to heaven, never been there before  
 I wanna go to heaven, so you kill me some more

( D F C G D )

Flying high upon the gallows  
 Too messed up to step out of the shadows  
 A drugged up heart that knows no sorrow  
 Rescued from this deep dark hole  
 Stick on these boots and sharpen the nails  
 Time is nigh for you leather girls  
 Maybe we should end this race  
 Vanish while we cannot leave no trace

[Refrão]

D F C G D F C G

If I don't go crazy, I'll lose my mind  
 I saw a life before me but now I'm blind  
 See one-arm film stars on alien beaches Potted gold and tattooed faces  
 Harrison murals on the corner, tupperware boxes full of hops  
 Diazepam dreams there catching streams Paper dinosaurs flash blue and green  
 Still I've got a flash-bulb head  
 Still I've got a flash-bulb head

[Refrão]

If I don't go crazy, I'll lose my mind  
 I saw a life before me but now I'm blind  
 I wanna go to heaven, never been there before  
 I wanna go to heaven, so you kill me some more

Come along nice, come along dead Scorpio rising, and paint it red  
 A psychic equalizer in your head  
 Come along nice, come along dead Scorpio rising, and paint it red  
 A psychic equalizer in your head  
 Come along nice, come along dead Scorpio rising, and paint it red  
 A psychic equalizer in your head  
 Come along nice, come along dead Scorpio rising, and paint it red  
 A psychic equalizer in your head  
 Come along nice, come along dead Scorpio rising, and paint it red  
 A psychic equalizer in your head
