

Debby Ryan - Open Eyes

tom:

Ab

Look around, it's deadly night

You've been losing every fight

You're hope is, feeling broken

You're feet are rough, they're scraped and bruised

But still have strength to take you through

Into, the dark

[Refrão]

Just close your eyes

And push right through

I know it's tough right now

This was meant for you

When the clouds are gone

Not a shadow in sight

You'll be drenched in the sun

With open eyes
