

Deep Purple - One Night In Vegas

```
Tom: G
                                                                                               C D Em
Intro: G
                                                                 The three shots did me in
                                                                 Three angels there above me
Ooh what a night it was, the night I fell apart
                                                                 As I was lying on the floor
I begged a lover not to go away but she went and broke my
                                                                 I knew I should have run for the hills
heart
                                                                                     D
                                                                              G
I found myself in a Vegas bar with a whole new set of friends
                                                                 But I still wanted more
Seen through the bottom of an empty glass
                                       Eb D Db C
                                                                 I don't remember the chapel but I woke up with a wife
Like looking through a fisheye lens
                                                                 I looked at her, she looked at me and now we're hooked for
One night in Vegas
                                                                 How strange the situation, it's now been thirty years
It was a morning of revenge for what I did the night before
                                                                 Since I met that girl in Vegas
Which accompanied me to the following day to even up the score
                                                                 And would you believe it, she's still here
In a stone cold sober mood next afternoon at ten
                                                                 One night in Vegas
I found my tongue back in my mouth
                                                                       Eb D
                                                                                  Db
                                                                 Oh yeah I gotta tell you, one night in Vegas
And I told myself not to drink again
                                                                 [Solo] Em
One night in Vegas
                                                                        Em C D
                                                                        \mathsf{Bm} \quad \mathsf{G} \quad \mathsf{A}
(Eb D F E A)
                                                                        Bm G A
                                                                                  Bm
                                                                        C G D
                                D
I was three sheets to the wind
```
