Probably the best song off the new self titled cd. I'm sure the intro is correct. The rest of the song is pretty much on the dot as well. But as with any tab, there is room for error. Feel free to send in your thoughts and corrections at . One thing, the (x) after some of the chords in this tab mean to continue strumming that chord to the rythm of the

song. The tab would be way to crowded if i retyped the same chord over and over again.  
Intro: /Verse (Clean)

## Chorus

"The ropes hang to keep us all ... awake"

"... and I should have known"

## Chorus 2

"It only takes one break"

" of your pose to get off"

" to save.... our home"

" with you..."
