 Light/life? switch man switch, film was broken only then

 All the night refused tomorrow dancing with a distant friend

 Filming and screening, I picture the scene
B **D** **A G D A**
 Filming and dreaming, dreaming of me yah

And so we left understanding, clean cut songs? were sounding fast
 I talked of sad I talked of war I laughed and climbed the rising past
 Filming and screening, I picture the scene
 Filming and dreaming, dreaming of me yah

Quickly I remember...before
 Timing reason understand like association whore
 Filming and screening, I picture the scene
 Filming and dreaming, dreaming of me yah
