Depeche Mode - It's No Good

Tom: F

  (C)

```
                  C  Bb
'm gonna take my time
      F
I have all the time in the world
          C    Bb
To make you mine
      F
It is written in the stars above
            C    Bb
The gods decree
         F
You'll be right here by my side
          C  Bb
Right next to me
      F
You can run but you cannot hide

              C
Don't say you want me
        Bb
Don't say you need me
          F
Don't say you love me
It's understood
            C
Don't say you're happy
        Bb
Out there without me
          F
I know you can't be
'cause it's no good
```
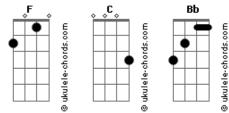

(C Bb F)

```
          C  Bb
I'll be fine
       F
I'll be waiting patiently
            C    Bb
Until you see the signs
        F
And come running to my open arms
            C  Bb
```

```
When will you realize
                 F
Do we have to wait till our worlds collide
               C    Bb
Open up your eyes
F
You can't turn back the tide

                 C
Don't say you want me
            Bb
Don't say you need me
              F
Don't say you love me
It's understood
              C
Don't say you're happy
        Bb
Out there without me
            F
I know you can't be
'cause it's no good

(C )

              C    Bb
I'm gonna take my time
      F
