

## **Depeche Mode - Something To do**

```
Tom: Ab
                                                                   I can't stand another drink,
                                                                   It's surprising this town doesn't sink. You've got your leather boots on.
My little girl, won't you come with me?
                                                                    (chorus)
Come with me, and tell me,
                                                                    (verse 5 (same as 3 and 4)
                                                                   Your pretty dress is oil-stained,
(chorus)
                                                                   From working too hard for too little.
(F throughout)
                                                                   You've got your leather boots on.
Is there something to do?
Is there something to do?
                                                                    (chorus)
Is there something to do?
                            Bbm7 Bbm
                                                                    (verse 6 (same 5)
                       Bbm
                                                                   You're feeling the boredom too.
Is there something to do?
                                                                   I'd gladly go with you.
(verse 2 (same as 1)
                                                                   I'd put your leather boots on.
I'm going crazy with boredom.
                                                                    (chorus)
Come with me, and tell me.
(chorus)
                                                                   I'd put your pretty dress on.
                                                                    (chorus)
(verse 3)
Greay sky over a black town,
                                                                    (coda)
I can feel depression all around.
                                                                   Is there something to do?
