

Derik Fein - Sun

tom:

Intro: Bm E A Gbm

I used to fly

When I was a child

Never thought I'd

Fall out the sky

Before I knew the world was a stage

And all I loved was destined to break

The more I try leaving my cage

It doesn't feel safe

A little bit of Sun

Is what I need

A little bit of air

So I can breathe

I just need a distraction

From all of the madness

It's all that I'm asking

I just want a little Sun

(E) Gbm

Oh, I just want some Sun

We come from the stars

But we got it wrong

You get what you are

And not what you want

Before I knew the world was a stage

And all I loved was destined to break

The more I try leaving my cage

It doesn't feel safe

A little bit of Sun

Is what I need

A little bit of air

So I can breathe

I just need a distraction

From all of the madness

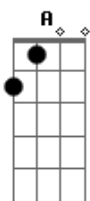

It's all that I'm asking

I just want a little Sun

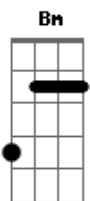

I just want a little Sun

Oh, I just want some Sun
