Abm   A      B                                      Abm
     We can make it further, we running and don't look back
A      B                                           Abm
It's a light at the end of the tunnel if you stay on track
 A    B                                             Abm
But I know any minute when your fingers turn it up like snap
      A             B
So hard to lose like that (hey)
          E7M            Ebm7
Let's do it all around the world
       D7M                        Ebm7
We gotta turn up the sunshine, we gotta turn up the sunshine

Think about it
E7M              Ebm7
All the boys and girls
        D7M                        Ebm7
You gotta turn up the sunshine, you gotta turn up the sunshine
          E7M            Ebm7
Said it's been a long night, long night
      D7M                    Ebm7
Waiting for the light, waiting for the light
          E7M            Ebm7
Let's do it all around the world
       D7M                    Ebm7
We gotta turn up the sunshine, we gotta turn it up

                         Abm
Make it hard to lose like that
 A       B
   You want it, you got it

 A       B                                          Abm
   It's brighter now when the colors of the rainbow flash
 A     B
   We gotta keep it moving
                         Abm
Make a change so it don't change back
    A              B

If this weather makes you frown
       D7M                Ebm7
And some people get you down, remember
E7M          Ebm7      D7M            Ebm7
Love like sound, it's better when it's loud
          E7M           Ebm7
And if there's no song inside
D7M                  Ebm7
