            G           Gbm      G      D
I'm just a somebody nobody wants
          Bm        G       A
(Nobody wants me) nobody wants me

D         Bm
Everybody that I see
G                 A
Seems to have someone but me
D               Bm
Arm in arm they walk along
G                   A
Why does life treat me so wrong?
D              Bm
Wish somebody wanted me
G                    A
?Cause I just don't wanna be
G         Gbm     G      A
Another somebody nobody wants

D             Bm
Saturday's another night
G             A
Just like any other night
Everybody's feelin' great
Everybody's got a date
All of them have fun but me
Why why why must I be
G             Gbm      G      A
Just another somebody nobody wants

G              A                D            Bm
Feel like my heart's about to break; I'm so sad
G         A               E           A
I want a girl to love me; I need her bad
D               Bm
I sit up in my lonely room
G                  A
Somethin's gotta happen soon
Wond'rin' why I'm all alone
Want somebody of my own
Someone who will care a lot
Someone who will prove I'm not
G        Gbm      G      A
Another somebody nobody wants

G              A                D            Bm
Feel like my heart's about to break; I'm so sad
G         A               E           A
I want a girl to love me; I need her bad
D               Bm
I sit up in my lonely room
G                  A
Somethin's gotta happen soon
Wond'rin' why I'm all alone
Want somebody of my own
Someone who will care a lot
Someone who will prove I'm not
G        Gbm      G      D
Another somebody nobody wants

 D        Bm       G      A
(Nobody wants me) nobody wants me
