

# Dionne Warwick - Love Power

tom:

Intro: Gm7 Cm7 Gm7 Cm7

Gm7 Cm7  
Saw a psychic in LA

Was just the other day

And she told me what I knew was true

She told me that I've never gotten over you

Fm7  
She said that if I called you

You'd just turn your back and walk away, ooh

Look what love can do

What am I to say

To this new girl just had last night

I tried to keep it light

When she held me in her arms, she knew

She told me that I hadn't gotten over you

Fm7  
I wonder if I called you

Would you make me pay for my mistake, ooh

Look what love can do

Is it now too late

Or can we get it back

Everything that we once had, ooh

Can we get it back

Talkin' about

Gm7  
Love power, it rules us

Takes over and fools us

To make it, it takes

Bb7M

Love power takes over

You see that I have never gotten over you

So I'm hopin' you still love me

Like you did before I walked away, uh-huh

Look what love can do, mmm...hmm

With just one mistake

Love power, it rules us

Takes over and fools us

To make it, it takes

Love power, it rules us

[Solo] Gm7 G7 Fm7 Eb7M Cm7

With just one mistake

Love power, it rules us

Takes over and fools us

To make it, it takes

Love power, it rules us

You see that I have never gotten over you

So I'm hopin' you still love me

Like you did before I

Walked away, I walked away (Oh...whoa...)

Look what love can do, mmm...hmm

With just one mistake

Love power, it rules us

Takes over and fools us

To make it, it takes

Love power, it rules us

You see that I have never gotten over you
