

# Dionysia - Carried Away

Tom: A

m [Intro] Am F C  
Am F C

Well my mama she once told me set your sights and set them high

Cause in the morning you may need them if you're feeling high and dry

And while your demons they may follow, let your shadows sleep tonight

And in the comfort of the setting sun don't hesitate to try and get

Carried away, carried away now

Let's get carried away, carried away now o-oh

All your morning ghosts are waiting just to keep your fears at bay

Let's get carried away, carried away now o-oh o-oh oh

[Ponte]

And I often find my comforts when I'm hurting for the line

That'll separate this moment from a broken state of mind

And this hell that I've been living all day and night

I will bend the bars and break the locks until I feel alive

Let's get carried away, carried away now

Let's get carried away, carried away now o-oh

All your morning ghosts are waiting just to keep your fears at bay

Let's get carried away, carried away now

O-- o-- oh o-- o-- oh o-- o

O-- o-- oh o-- o-- oh o-- o

O-- o-- oh o-- oh

Carried away, carried away now

Let's get carried away, carried away now o-oh

All your morning ghosts are waiting just to keep your fears at bay

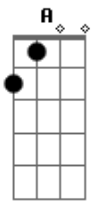

Let's get carried away, carried away now

Let's get carried away, carried away now

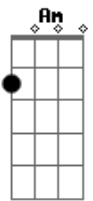

Let's get carried away, carried away now

Let's get carried away, carried away now
