

Dirty Devil Band - Down That Road

tom:

Intro: Gm F Gm F

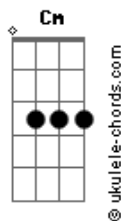

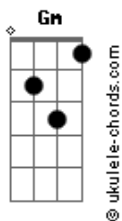

If the moon ain't shining on your face
 If the grass ain't greener on your grave
 The red roses ain't moving by the wind
 Well you'll meet me down that road again

If the flame in her eyes were blackout
 If the night has taken all the day
 Well don't worry it will all work it out
 When you meet me down that road again

Down that road, I'll go again

Down that road, I'll go in the end

Acordes

'Till the end

If the house you've lived had burned out
 If your kids are gone and you've lost it all
 Don't you worry I'll always be your friend
 When you meet me down that road again

Down that road, I'll go again

Down that road, I'll go in the end

'Till the end

Down that road, I'll go again

Down that road, I'll go in the end

'Till the end
