

Disney - Hercules - I Won't Say (I'm In Love)

```
Who you are and how you're feeling
                            tom:
                                                                Baby, we're not buying
            C
If there's a prize for rotten judgement
                                                                Hon, we saw ya hit the ceiling
I guess I've already won that
                                                                Face it like a grown-up
No man is worth the aggravation
                                                                When ya gonna own up
G F G7 F G
That's ancient history, been there, done that!
                                                                         Dm G G
                                                                That ya got, got, got it bad
Who'd' ya think you're kiddin'
                                                                No chance, no way
He's the Earth and heaven to you
                                                                I won't say it, no, no
Try to keep it hidden
                                                                Give up, give in
Honey, we can see right through you
                                                                Check the grin you're in love
Girl, ya can't conceal it
We know how ya feel and
                                                                This scene won't play,
          Dm
Who you're thinking of
                                                                I won't say I'm in love
                                                                You're doin' flips
No chance, no way
                                                                read our lips
I won't say it, no, no
                                                                You're in love
You swoon, you sigh
                                                                You're way off base
why deny it, uh-oh
                                                                I won't say it
                                                                She won't say it no!
I won't say I'm in love
                                                                Get off my case
                                                                I won't say it
It feels so good when you start out
                                                                Girl, don't be proud
My head is screaming get a grip, girl
Unless you're dying to cry your heart out
                                                                 At least out loud
You keep on denying
                                                                I won't say I'm in love
