

DMA's - Break Me

```
tom:
Intro: E G D
[Primeira Parte]
Hole in our waist we take a breath again
To work it out
It's all in my head, a friend again
Always, please let me out
[Refrão]
I've been there before, I've seen it once more
Would I see you are going, see you are
Would you break me? Would you break me now?
You won't break us, you won't break us now
[Segunda Parte]
Sole state of mind, the state of mine
Always, I won't let you down
It's all in our days to find a way
