Did you feel like heaven
Did you ring like silver in the wasted light
Still I?m trying to find

E
Did you sing through the battle call
Did you ring like silver in the wasted light
Still I?m trying to find
Saw it beneath your eyes

[Pré-Refrão]

It?s funny that I think of you right now
Knowing all the years that turned to clouds
I?m still coming down

And you know it ain?t that way
Feeling all the things I could not say
I?m still coming down
You still coming round yeah
