

## **DMA's - Straight Dimensions**

```
tom:
Intro: G C F
       GCF
       G C F
[Primeira Parte]
You, you know you heard the sound
Would you feel the same?
We, we turn the wrong way round
                G
Drifting through memories of a dream
Now I know the way back down
              G
Sinking like we never did before
                G
Night I'll bring the world back round
Knocking too familiar on your door
[Refrão]
And I don't have a single feeling
That wants to hang with me
And I don't have a single feeling
That wants to hang for free
Yeah, you know you come
                          Am F
The one, you feel it in my arms again
Yeah, you know the one, you come
                 Am F
You feel it in my arms again
( G C
      F)
( G C F )
( G C F )
( G C F )
[Segunda Parte]
You, you know we may have found
          G Am
Memories in our years
                          Dm
Feel, you know it's making ground
Ringing in the comfort of our tears
[Refrão]
And I don't have a single feeling
```

## Acordes
