The first time you're in love it feels so right

Its not supposed to be what people think

It don't matter this time

I have all I ever wanted

And it's all I'll ever need

You know everything about me

But you're a mystery

It's not about me

It's not about us

It's all about love

It's not about you

It's all about truth

And this is because

I'm never gonna say I'm sorry

Cause nobody knows our story

It's all about love

Love

( Am F C G )
