[Primeira Parte]

I said, "Do that, do that, baby, all night long"

And I'ma turn off all my phones

You know I hate it when I'm left on read

But he make it all up in the bed

And he take me out, dinin' on nothin' but the best

He got Off-White on right, damn, he can dress

Makin' plans from the East, makin' bands in the West

Rockstar, Black Beatle type, bands on his bread

And baby, I want it, and I'll just be honest

'Cause I just can't front when I look at you

Just keep it one hundred, when I throw these hundreds

I hope that your ass gon' know what to do
