

Dominic Fike - Think Fast (feat. Weezer)

tom: D

Oh, oh, oh, oh
Oh, oh, oh, oh

I'm born
I cry
I sing
I leave this place
This place was bad for me
What's worse, what stings
I saw her in the garden with the snakes, she said

Think fast you only get one try
Sleep tight, I wanna get sunshine
Wake up you know we got things to see
She talks till nothing makes senses
If not a puzzle, it must be nonsense
If it's not a puzzle, then what's she talking about?

I will find out, I will
Wake up, find out, I will

Think fast you only get one try
Sleep tight, I wanna get sunshine
Wake up you know we got things to see
She talks till nothing makes sense to me

Baby she say, two was an odd number
If you was involved, I'd laugh
Louis C.K. scumbag, Louis Vuitton
I think life is a game, I'm just playing along
I had something to say then forgot what it was
Back then I grew up next to you, all insecure

If you knew what I was in for, I wouldn't be standing with you

Back then, you knew what you was doin', how could act like
Everything would be simple?

Everything could be (Yeah)

I wrote rules the wrong ways

Had blues and long days

Had clues to deadends

I lose the lost fate

I bruised up my face, she kissed, it go away

My wrist, I made worth, I kept my pay first, like (cool)

[Ponte]

I hold my head, she sings to me
I grow, forget her in my work
Those times we shared, they are so long
And when I'm dead, we'll all go home
They'll cry
They'll sing
Then leave this place
This place to me was everything
What hurts
What stings
I saw her in the garden with her friends, she said

[Pré-Refrão]

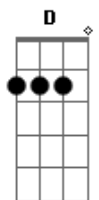

I will find out, I will
Wake up, find out, I will

[Refrão]

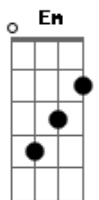

Think fast you only get one try
Sleep tight, I wanna get sunshine
Wake up you know we got things to see
She talks till nothing makes sense to me
