

# Don McLean - Great Big Man

Tom: A

This is from McLean's live album `SOLO`.

When playing A, D and E chords, change between major and 6th chords, i.e. actually play for instance A A A A A A etc. (blues style)

In the chorus, the `great big man...` part is played like this:

it takes a great big man to win a great big fight.  
Intro: A A A A ...

**A**  
Rust on your fingers, you got trouble at your feet.  
Keep the homefires burning, but look out for the heat **A7**  
'cause there's a man at the window who knows just what you think, **D**  
and there's a water boy behind you who won't give you a drink **A**

**E**  
Well it's a hard, hard time, no easy road in sight,  
it takes a great big man to win a great big fight.

And when it comes to dying, no matter what you tell,

They'll let you into a heaven 'cause you lived your life in hell.  
But they've got no way to reward you but to let those breezes blow,  
And you've got nothing left to do but to let your anger show.

'Cause it's a hard, hard time, no easy road in sight,  
it takes a great big man to win a great big fight.

**D** **A7** **D** **A7**  
Think about your baby, think about your wife,  
**D** **A7** **B7** **E**  
Think about your banker who's trying to take your life.  
**D** **A7**  
Think about this planet that's rolling through the night.  
**B7** **B7** **E**  
Oh can you turn your back on such a great big fight?

You got the muscle, big man, you got the power,  
but you're getting weaker with each passing hour.  
Just like a flame in the rain, like a light in the night,  
well if it's you that must stay, well then it's you that must fight!

**E**  
'Cause it's a hard, hard time, your future's not bright,  
it takes a great big man to win a great big  
great big man to win a great big fight.

Coda: A
