

# Donna Burke - Glassy Sky

Tom: C

How many days have passed like this  
 This city the crowd is fading, moving on  
 I sometimes have wondered where you've gone  
 Story carries on, lonely, lost inside...  
 I had this dream so many times  
 The moments we spent has past and gone away  
 Could there be an end to this, what I'm feeling deep inside  
 You know there's no looking back...  
 Glassy sky above, as long as I'm alive, you will be part of me  
 Glassy sky, the cold, the broken pieces of me...  
 The mystery of it I recall  
 Suddenly the truth will change the way we fall

I didn't wanna hurt you, hope you know  
 Empty promises, shattered dreams of love  
 Sometimes I wonder what's beyond  
 I tried many times to make it up to you  
 Can somebody tell me what to do?  
 Thought we're meant to be... There's no going back  
 Time has already come...  
 Sun is gone and no more shadows...  
 Can't give up I know and this life goes on  
 I'll be strong I'll be strong 'til I see the end...  
 Glassy sky above, as long as I survive, you will be part of me  
 Glassy sky, the cold, the broken pieces of me...  
 Glassy sky above, covers over me... over me...
