

Donna Summer - Love's About To Change My Heart

tom:
E

I never needed someone
'Cos I always led a life of my own
Never waited for the ring of the phone
Never had anyone here
When I got home
But love's about to change my heart
I'm waiting for the doorbell to chime
When I always lived one day at a time
I thought that I was getting on fine
Never felt I was alone
'Til you changed my mind
Love's about to change my heart
Could a day be so long
When I always felt secure and so strong
And all the time as I went along
Never thought I would desire
