[Primeira Parte]

Through it all once again
 Came to know my only friend
 Lost control
 Can't begin, I seek within
 To feel the warmth brought within your skin

Did you know

[Refrão]

For how it seemed
 I should've stayed and let you be
 Run into my heart so carelessly
 That's the reason I'm afraid
 You're the thoughts that can't be tamed
 And I'm trying to be sane
 And I'm trying to be sane
 And I'm trying to be sane
