

Dream Theater - A Better Life

```
"Attention, battalion!
To rank right, face!
Forward, march!"
As fearless leader of the Ravenskill Militia
                       Am
The blood of warriors flows throughout my veins
My brother's gift remains my secret ammunition
                         D
It is our hope, our pride, a catalyst for change
Still the fires of revolution burn within my eyes
                                 D
On this perilous road to freedom, he's our one and only guide
For many years, I've seen
Our people starve and suffer
How many more will die before we stand and fight?
They ask me "Arhys, could things be any tougher?"
The answer's no surprise: "Yes, you bet your life".
                  G
                         G Em
Now the fires of revolution won't burn forever more
                                 D
I see liberty in our future, and it's one we're fighting for
We all long for a better life

Like a dream that can't be denied

Freedom if we live or if we die
I shall give him a better life
          Bm
I swore this vow to my dying wife
         С
Sure, she would not survive
          Em
Peacefully she slipped away
The meaning in my life
Was born that day
And so I found the strength to carry on with this crusade
E FE
It is my fate.
Evangeline, you lived a life of misery and pain
                     G
Evangeline, I'll never let your memory die in vain Em G F Am
Evangeline, my heavy heart still bleeds
I dedicate my life to set you free

F G Am
And I will carry on to plant the seeds
I promise in the name of our new son;
                   Am
This battle won't be over until it's won!
