

Dry The River - No Rest

Tom: F

[Verso 1]

I used to be a king alone
 Like Solomon or Rehoboam
 And in this, a corvée day
 Did jealous keep my picture frames
 And everything did oxidate in place

[Verso 2]

But then you came, a single cell
 With astrolabe and carousel
 And algebra and symmetry
 And none of this was lost on me
 And I could see how still I'd been before
 If I don't eat, I don't sleep at all.

[Ponte 1]

Like limbs in procession,
 Like so many birds,
 Stamping like oxen,

Our hearts are a herd

[Refrão]

I loved you in the bed,
 I loved you in the best way possible,
 I loved you in the bed,

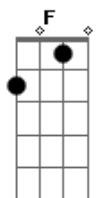

[Ponte 2]

Did you see the light in my heart?
 Did you see the sweat on my brow?
 Did you see the fear in my heart?
 Did you see me bleeding it out?

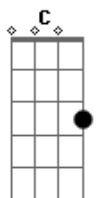

[Refrão]

I loved you in the bed,
 I loved you in the best way possible,
 I loved you in the best way possible,
 I loved you in the best way possible,
 I loved you in the best way possible,
 I loved you in the bed.
