

Dua Lipa - No Goodbyes

Tom: C

Maybe one day
 I can see you
 We can smile and wave
 And it'll be okay
 Maybe one day it'll be cool
 We could just be friends
 Without the complications
 That it brings
 When we start saying things
 Yeah, I hurt you
 And you hurt me
 Yeah, we did somethings that we
 can never take back
 And we tried hard
 just to fix it
 But we broke it more
 and so I guess somethings are
 not meant to last
 it is too much to ask
 For tonight
 Let's love like there's no goodbyes
 Just for tonight
 Pretend that is all alright
 Why don't we hold each other
 Use each other, whisper pretty lies
 Just for tonight
 Let's love like there's no goodbyes

No goodbyes, no goodbyes
 No goodbyes, eh
 In a dark room, we don't have to
 See the light of truth
 Between me and you
 We can stay blind, in the meantime
 Let our bodies say
 What we can never seem to communicate
 Even though is too late
 For tonight
 Let's love like there's no goodbyes
 Just for tonight
 Pretend that is all alright
 Why don't we hold each other
 Use each other, whisper pretty lies
 Just for tonight
 Let's love like there's no goodbyes
 No goodbyes, no goodbyes, no goodbyes
 No goodbyes, no goodbyes, no goodbyes
 Maybe one day i'll see you
 Just smile and wave and be okay
 Just for tonight
 Pretend that is all alright
 Why don't we hold each other
 Use each other, whisper pretty lies
 Just for tonight
 Let's love like there's no goodbyes
 No goodbyes, no goodbyes, no goodbyes
 No goodbyes, no goodbyes, no goodbyes
