

Dua Lipa - We're Good

tom:
Capostrate na 1ª casa

I'm on an island, even when you're close
 Can't take the silence, I'd rather be alone
 I think it's pretty plain and simple, we gave it all we could
 It's time I wave goodbye from the window

Let's end this like we should and say we're good
 We're not meant to be like sleeping and cocaine
 So let's at least agree to go our separate ways

Not gonna judge you when you're with somebody else
 As long as you swear you won't be pissed when I do it myself
 Let's end it like we should and say we're good

No need to hide it, go get what you want
 This won't be a burden if we both don't hold a grudge
 I think it's pretty plain and simple, we gave it all we could
 It's time I wave goodbye from the window

Let's end this like we should and say we're good
 We're not meant to be like sleeping and cocaine
 So let's at least agree to go our separate ways
 Not gonna judge you when you're with somebody else
 As long as you swear you won't be pissed when I do it myself
 Let's end it like we should and say we're good

Now you're holding this against me, like I knew you would
 I'm trying my best to make this easy
 So don't give me that look, just say we're good

We're not meant to be like sleeping and cocaine
 (Like sleeping and cocaine)
 So let's at least agree to go our separate ways

(To go our separate ways, oh)
 Not gonna judge you when you're with somebody else
 As long as you swear you won't be pissed when I do it myself
 Let's end it like we should and say we're good
