

# Dua Lipa - We're Good

tom:  
 Capotraste na 1ª casa

I'm on an island, even when you're close  
 Can't take the silence, I'd rather be alone  
 I think it's pretty plain and simple, we gave it all we could  
 It's time I wave goodbye from the window

Let's end this like we should and say we're good  
 We're not meant to be like sleeping and cocaine  
 So let's at least agree to go our separate ways

Not gonna judge you when you're with somebody else  
 As long as you swear you won't be pissed when I do it myself  
 Let's end it like we should and say we're good

No need to hide it, go get what you want  
 This won't be a burden if we both don't hold a grudge  
 I think it's pretty plain and simple, we gave it all we could  
 It's time I wave goodbye from the window

Let's end this like we should and say we're good  
 We're not meant to be like sleeping and cocaine  
 So let's at least agree to go our separate ways  
 Not gonna judge you when you're with somebody else  
 As long as you swear you won't be pissed when I do it myself  
 Let's end it like we should and say we're good

Now you're holding this against me, like I knew you would  
 I'm trying my best to make this easy  
 So don't give me that look, just say we're good

We're not meant to be like sleeping and cocaine  
 (Like sleeping and cocaine)  
 So let's at least agree to go our separate ways

(To go our separate ways, oh)  
 Not gonna judge you when you're with somebody else  
 As long as you swear you won't be pissed when I do it myself  
 Let's end it like we should and say we're good

## Acordes
