       C Em Am F
A word from the wise
            Am
 Don't try to make life on your own
            Em
                     Am
 Remember that jah jah by your side
                   Em
  For i was a soul who lost and my life
 Was in dismay
                Em
 For amongst evil forces in which i came
     Em
                       Am
 Guns and ammunition were my chosen way of life
              Em
                            Am
 With God fearin people i choose to strive
                         Em
 For all of the lives that are take they can never be
                  Fm
 But still jah jah chose to remember my face
[Refrão]
Though i never lived like he wanted
I was mindful of what he though me
So now i beg and plead im on my bended knees
Cause father u rescue
      C
                       Em
And i've got the stars to show i barely made it along life's
```

 From corner to colour and corner
 From rockers to jungle kentyre
                 Em
 Rising to dreadhieghts and river all around
And then the footbal ground became my battlefield
And my life was so surreal

 People were fallin all around
 But jah helped me to stand my ground

So now take it from me son
You can change the world today
Cause livin proof
