

Duda Sings - Memories

tom:
 C
 I remember all from that night Dm
 We were driving through the city lights Am
 I took your hand and you said it's alright G
 Never thought you could lie to my eyes
 C Dm
 Safe and sound from the problems around Am
 Didn't know you were the biggest I'd found G
 Guess one could say that you had it your way
 I'll always be the one that got away
 C
 And I Dm Am
 Thought I could trust you with my life G
 You were the one who made it right
 Through dusk and dawn thought you were by my side
 C Dm
 And memories flow back into my mind Am
 As I walk through the streets where you once called me 'mine' G
 Oh no, I can't go home, I'll feel alone C Dm Am
 As the thought of you comes back G
 C Dm
 Memories flow back into my life Am
 As I walk through the streets where you once called me 'mine' G
 Oh no, I tried to move on, but I'm still caught on C Dm Am
 As the memories rush back G
 Dm Am
 I often think if i'm free or just lonely C
 You made me feel like the only one Dm
 Later I found things I couldn't see G
 Am
 Told other girls the same three words you told me
