

## **Dudu Aragão - I Want To**

```
tom:
                                                                Country music
                Dbm (forma dos acordes no tom de Bm )
Capostraste na 2ª casa
                                                                G
I love my life
            [Primeira Parte]
                                                                And you love yours?
                                                                 [Refrão]
I'm a simple boy
Who likes to sing
                                                                 I want to fly
Like this song
                                                                As high as I can
That I'm playing
                                                                I want to be
                                                                 Gb7
                                                                The best I can be
I'm a city boy
                                                                And I'm going to get it
But I know the countryside
I'm underage
                                                                I believe in myself
And I have a lot to talk about
                                                                And I'm going to get it
[Pré-Refrão]
                                                                I believe in myself
Bm
                                                                 [Final] Bm
```

I like rock

## **Acordes**
