                                                            Pretty looking road I try to hold the rising floods that fill

                                                            my skin
(Dm F Bb G F)
                                                            Don't ask me why I'll keep my promise I'll melt the ice
(Dm F Bb G F)
                                                            And you wanted to dance so I asked you to dance
                         Bb
You saw me standing by the wall corner of a main street
                                                            but fear is in your soul
                                       G F
And the lights are flashing on your window sill
                                                            Some people call it a one night stand but we can call it
                   Bb
                                                            paradise
All alone ain't much fun so you're looking for the thrill
                        Bb
                                                                                       G
                                                                                            Gbm
And you know just what it takes and where to go
                                                             Don't save a prayer for me now. Save it til the morning
