

Dylan - In The Moonlight (Do Me)

```
tom:
            [Primeira Parte]
The stars are falling from the sky
And you're the reason why
[Segunda Parte]
The moon is shining on your face
And I finally think its found its place
[Refrão]
Cause maybe, baby, I just wanna do you, do you
Do you wanna do me, do me
Underneath the moonlight, the moonlight
Tonight?
[Terceira Parte]
Now we're hiding in my car
I let you see my scars
[Quarta Parte]
Escape the dark for just one night
Your heart makes me explode with light
[Refrão]
Cause baby, baby, I just wanna do you, do you
```
