

# Eagle-Eye Cherry - Death Defied By Will

Tom: G

Em D C G (repete a musica toda)

He only thought he was going for the thrill of a ride  
 Wasn't in the plan to be gone for long  
 But he keeps looking back over his shoulder  
 He knows that something might go wrong  
 The ride it ain't smooth that is for sure  
 Strange mood what is the cure  
 He's got that feeling of impending doom  
 Like being trapped in a casket inside a tomb

CHORUS:  
 Death defied by will  
 Like a drug that doesn't kill  
 Boy you gotta learn what's true  
 Death defied by will  
 Like a drug that doesn't kill  
 The joke is on you  
 You ought to know better  
 You ought to know better

He is determined to outsmart this snake  
 With conviction he will stand his ground  
 Feeling invincible like death itself  
 But his immortality won't be found  
 What should he say at his own wake  
 That he refuses to fulfill his fate  
 He doesn't know that this is his last drive  
 On the road we call alive

CHORUS

Bridge:

Am Em

Now the time has come  
 You can't play around  
 And you ought to know  
 You ought to know better  
 You ought to know better

CHORUS

## Acordes
